

APRIL 2016

16.4.2016: EXCURSION TO TATOI.

We have organized an excursion to Tatoi with the Author-Botanist Mr George Sfikas. Mr Sfikas is Honorary President of the association "Protection of Nature" and has written many books of the Greek Flora which have been translated in many languages including the Japanese. Mr. Sfikas has accompanied us in this excursion and has shared with us his deep knowledge of the wild flowers, medical plants and fauna of the Tatoi region. Our appreciation and thanks for his offer.
